

ELECTRIC RATE SCHEDULES

A Department of the City of Alameda

RIDER OPT OPT OUT OF ENERGY inView® METERING

PURPOSE

The purpose of this Rider is to allow qualifying residential customers on Rate Schedule D1 to decline installation of a wireless-communicating Energy inView® meter (hereafter, "Opt-Out Customers"). Eligible Opt-Out Customers who do not wish to have an Energy inView® meter installed at their premises will not receive the benefits offered by this equipment. Subject to meter availability, Opt-Out Customers shall have an analog meter or a non-communicating digital meter for their electric service under this Rider.

APPLICABILITY

This Rider is only applicable to certain residential customers on Rate Schedule D1 who have accessible electric metering, in AMP's sole judgement. In AMP's sole judgement, residential customers on rate Schedule D1 who have inaccessible or difficult to access metering shall not be able to select this option.

This Rider is **not** applicable to residential customers on Rate Schedule D1 who have elected service under Rider NEM, Rider ERG, Supplemental Schedule EV-X, residential customers on Rate Schedule D2, commercial customers on Rate Schedules A1, A2, A3, or A4 and municipal customers on Rate Schedules M1, M2 or M3.

Applicable residential Opt-Out Customers who enrolled in AMP's Energy Assistance Program (EAP) may receive service under the Rider OPT sub-class Rider OPT-EA with a discounted initial fee and a discounted monthly charge. Opt-Out Customers must maintain their approved low-income status and be enrolled in the EAP to qualify. Opt-Out Customers who no longer qualify for the EAP and want to continue service as an Opt-Out Customer would be subject to the regular Rider OPT charge.

Opt-Out Customers shall be charged for this option on their regular electric service bill. AMP may remove a customer from participating in the opt-out option if the customer fails to pay the Initial Fee or the Monthly Fee(s), or if the Opt-Out Customer fails to keep their account in good standing. In addition, all charges will be subject to the terms and conditions as specified in AMP's Rules and Regulations.

Opt-Out Customers will be provided with bills based on estimated meter reads on a bi-monthly basis (i.e., every two months). Estimated meter reads will be based on the prior month's daily average usage, which will be used for billing purposes. Actual meter reads will occur every other month.

ADOPTED: December 11, 2017
RESOLUTION NO. 5133
(Superseding Rider OPT Effective February 1, 2017)

Effective: December 12, 2017

ELECTRIC RATE SCHEDULES

A Department of the City of Alameda

RATES

Rider OPT will have two rate sub-classes for the two types of fee structures: Rider OPT for qualifying residential customers and Rider OPT-EA for qualifying residential customers actively enrolled in AMP's EAP. All charges and provisions of the residential customer's applicable Rate Schedule D1 shall apply, except that Opt-Out Customers will be charged additionally as follows:

Rates	Type of Opt-Out Customer	Initial Fee	Monthly Fee
Rider OPT	Qualifying Residential Customers (see exceptions cited under the Applicability section)	\$ 125	\$ 10
Rider OPT-EA	Qualifying Residential Customers Actively Enrolled in AMP's Energy Assistance Program (see exceptions cited under the Applicability section)	\$ 93.75	\$ 7.50

Opt-out charges will be applicable following any needed meter exchange. Where a meter exchange is not required, opt-out charges will be applicable following affirmative election of the opt-out option by the customer.

Opt-out fees shall be reviewed annually as part of AMP's normal rate review process.

Opt-Out Customers may cancel this option at any time without penalty and receive electric service with an Energy inView® meter.

OPT-OUT PROVISIONS

- a) A customer must affirmatively elect to opt out of the Energy inView® meter to obtain service under this Rider. Customers shall default to an Energy inView® meter-based service absent such an election.
- b) Customers who do not provide reasonable access to their meter, in AMP's sole judgement, or have affirmatively prevented the installation of an Energy inView® meter, shall be deemed to have elected this Opt-Out Rider.
- c) Residential customers who initiate a new service order in a location with an existing Energy inView® meter shall have four business days, from the day service is turned on, to opt out of the Energy inView program.
- d) Entities such as condominiums, associations and multi-unit dwellings are not allowed to exercise the opt-out option on behalf of individual residents, unless they are the electric account holder of record.
- e) Opt-Out Customers will not be eligible for Time-of-Use rates.
